SAFARI TRACKS - Episode Synopses

EP. 4SH00401: "THE NEED FOR SPEED"

This episode of "Safari Tracks" gets in the fast lane to track the land speed records of Africa's fastest animals. We'll clock the times of the hippo, crocodile, giraffe, wildebeest, cheetah and many more before we award the blue ribbon.

EP. 4SH00402: "CROCODILE CHRONICLES"

This episode of "Safari Tracks" travels to the edge of Africa's streams and lakes to search out the Nile crocodile. We'll keep our distance as we find out how crocs hunt, what they eat, and what makes them one of Africa's most dangerous predators.

EP. 4SH00403: "LION KINGS"

This episode of "Safari Tracks" goes in search of the king of all beasts: the lion. They may sleep most of the time but lions make up for it with their strength and their unwavering loyalty to the pride.

EP. 4SH00404: "FLYIN' HOOVES"

This episode of "Safari Tracks" follows herds of African antelope on their endless journeys across the savanna. From gazelles, impalas and bushbucks to kudus, dik-diks and wildebeests, we'll discover the best kept secrets on how these animals escape Africa's most relentless predators.

EP. 4SH00405: "HIPPOS: SWIM AT YOUR OWN RISK"

This episode of "Safari Tracks" goes aquatic in its search for Africa's most dangerous animal. While he may seem comical to us, the hippo's massive mouth, long teeth and surprising speed make him king of the watering hole.

EP. 4SH00406: "SPOOKY AFRICA"

This episode of "Safari Tracks" takes a somewhat scary trip into the wilds of Africa after dark. We'll meet the usual eerie nighttime animals, like owls and bats while we look into the glowing eyes of hyenas, crocodiles and leopards.

EP. 4SH00407: "AFRICA'S STRONGEST ANIMALS"

This episode of "Safari Tracks" redefines how strong animals really are. From ants and beetles, to hyenas, crocodiles, and elephants —physical strength is applied in many unexpected and amazing ways.

EP. 4SH00408: "PARADISE FOUND: THE OKAVANGO"

This episode of "Safari Tracks" goes deep into one of Africa's most spectacular habitats—the winding waterways of the Okavango Delta. Exotic birds, hippos, crocodiles and Cape buffalo are all waiting around the bend on this watery safari.

EP. 4SH00409: "ALL IN THE ELEPHANT FAMILY"

This episode of "Safari Tracks" follows the mighty African elephant, the world's largest living land animal in its natural habitat. Family dynamics, daily diet and the fascinating rituals of elephant life are explored as this safari follows large herds roaming the savanna.

EP. 4SH00410: "SLIMY SLITHERERS"

This episode of "Safari Tracks" goes low to the ground in its search for Africa's reptiles. We'll follow the trails of snakes, chameleons, monitor lizards, geckos, snails, skinks and the entire world of slithering bush inhabitants.

EP. 4SH00411: "DOGS OF AFRICA"

This episode of "Safari Tracks" makes friends with an often forgotten member of the African bush: the wild dog. We'll roam thousands of miles to keep up with this clever yet endangered canine as he struggles for survival.

EP. 4SH00412: "THE BIG FIVE"

In this episode of "Safari Tracks" we'll point our cameras at the "Big Five"—once considered the five most dangerous animals to hunt in the bush. Now they are considered the five must-see animals on every safari to-do list.

EP. 4SH00413: "LEADERS OF THE PACK"

This episode of "Safari Tracks" is all about who's the boss. In many animal societies, there is one leader who decides when the group eats, sleeps and how they remain safe from predators.

FP. 4SH00414: "GIRAFFES: AFRICA'S SKYSCRAPERS"

This episode of "Safari Tracks" does a vertical leap above the tree line to meet the world's tallest land animal: the giraffe. Feasting on acacia leaves, drinking at the waterhole, reproducing and avoiding lions and crocodiles are the giraffe activities highlighted on this "safari with a view."

EP. 4SH00415: "ANIMAL ADDRESSES"

This episode of "Safari Tracks" tours the many dens, burrows, nests, holes, mounds and reefs that animals call home. With more than sixteen hundred animal species, Africa has the widest variety of animal addresses of any continent.

EP. 4SH00416: "BUFFALO STILL ROAM"

This episode of "Safari Tracks" roams far and wide to observe the behavior of one of Africa's most dangerous animals: the Cape Buffalo. These herding animals keep to themselves since no other animal will openly challenge their strength.

EP. 4SH00417: "DEEP SEA AFRICA"

This episode of "Safari Tracks" goes off the deep end as we travel to the coastal waters for a true underwater safari. From the smallest reef fish to the apex predator, the Great White Shark, we'll survey the vast diversity of the coral reef.

EP. 4SH00418: "SMALL SURVIVORS"

This episode of "Safari Tracks" celebrates Africa's "little guys." In the super-sized world of bush predators, a multitude of pint-sized animals have carved out an existence based on stealth, smarts and teamwork.

EP. 4SH00419: "RHINOS: DISAPPEARING GIANTS"

This episode of "Safari Tracks" pursues the endangered African rhinoceros. Their single horn is valuable to poachers, but positive human intervention is helping to restore this awesome giant to his rightful habitat.

EP. 4SH00420: "THIEVES OF THE SAVANNA"

This episode of "Safari Tracks" is dedicated to the scavengers of the African plains. Some fly while others run, but they are all intelligent, quick and adept at stealing their food right from under another animal's nose.

EP. 4SH00421: "ZEBRA ZONE"

This episode of "Safari Tracks" is a black and white adventure of pursuit, as we follow zebra herds across the plains. Zebras' unique stripes, cooperative survival skills and high-powered eyesight ensure that they will continue to thrive in the often-hostile bush environment.

EP. 4SH00422: "MUD HOLE"

This episode of "Safari Tracks is a mud bath waiting to happen! We'll stake out a waterhole and take a head-count of the incredible range of animals that depend on the abundant mud and life-giving waters of these popular rest stops.

EP. 4SH00423: "AFRICA: CAT'S CRADLE"

This episode of "Safari Tracks" is a feline fantasy as we go prowling for the multitude of cats that call Africa home. From lions and leopards to cheetahs, wildcats, civets, servals and lynx, we'll cuddle up with cutest and the most ferocious.

EP 4SH00424: "WILD CLIMBERS"

This episode of "Safari Tracks" is an epic climbing adventure. We'll find out the identities of Africa's best climbers, learn where their mountaineering skills come from and what they best like to climb.

EP. 4SH00425 "SURVIVING THE HUNT"

This episode of "Safari Tracks" shows what it takes to survive on the savanna. Strength, cunning ability, and sometimes just plain luck factor into every animal's fate in the wild, where it's all about survival of the fittest.

EP. 4SH00426: "WILDEBEEST WATCH"

This episode of "Safari Tracks" follows the grand migrations of the African wildebeest. This antelope might look like it was assembled from spare parts, but it has all the tools needed to roam thousands of miles in search of food and water.

Educational and Informational Programming

What is E/I Programming?

Educational and informational television programming is programming that furthers the educational and informational needs of children 16 years of age and under in any respect, including the child's intellectual or social needs and that also satisfies the following criteria:

- 1. The programming must have a significant purpose. Education need not be the only one. That purpose must serve the needs of children ages 16 and under.
- 2. Commercial broadcasters must provide the educational and informational objective of core programming in writing. The report will indicate a specific target age group for core programs.
- 3. Core programming is scheduled from Monday Wednesday from 10:00 AM 11:00 AM EST.
- 4. The program must be regularly scheduled so that it can be published in program guides consistently.
- 5. The program must be of a substantial length 30 minutes or more.
- 6. Quarterly reporting of the schedule and hours of E/I programming to the FCC is required.
- 7. If E/I programming is preempted, written notice is necessary to identify where and why the E/I programming was preempted.
- 8. The program must be identified as specially designed to educate and inform children by the display on the television screen throughout the program of the E/I symbol.

Example of E/I Programming

Safari Tracks is a program with content grounded in the natural world and delivered using an approach that, while entertaining to a young audience, highlights the informational and educational aspects of the animal kingdom in the given environment of Africa. There is no question that an audience of young people would gain worthwhile information and concepts delivered with an enlightened attitude toward nature and the environment. Viewers receive topic points that help build the ethical decision-making necessary to becoming a citizen of the planet.

Planet X provides young viewers a television show that meets core requirements of the FCC as follows:

Planet X is an E/I video sports and fitness based TV series for children 13 - 16 years old. Each episode mixes action & extreme sports content within a balanced and well produced program that features (1) inspiring sports & fitness themes, angles and stories, (2) informational and educational elements on sports training tips from athletes, (3) information on how to get involved in dozens of sports and fitness programs, coverage of sports and products from an insider's perspective, (4) regular travel and cultural experiences via foreign adventure feature shows all around the world and much more!
